SWING BEAM SHEAR

- Perfect Cutting
- Hi-Speed
- Heavy Duty
- Accurate
- Efficient

DURMA The Winning Force

As a total supplier for sheet metal manufacturing with almost 60 years of experience, Durma understands and recognizes the challenges, requirements and expectations of the industry. We strive to satisfy the ever higher demands of our customers by continuously improving our products and processes while researching and implementing the latest technologies.

In our three production plants with a total of 150.000 m², we dedicate 1,000 employees to delivering high quality manufacturing solutions at the best performance-to-price ratio in the market.

From the innovations developed at our Research & Development Center to the technical support given by our worldwide distributors, we all have one common mission: to be your preferred partner.

Present Durmazlar machines with **DURMA** name to the world.

The Winning Force

Rigid body structure and perfect cutting

Unique design and rigid body enable SBT series to provide perfect cutting quality and low cost solutions.

Advance Your Standards

Precision and high quality cuttings

High technology standards, design and user-friendly interface SBT provides perfection with high standard safety, efficient solutions that strengthen your skills and add value to your company.

We have reduced the cutting angle to achieve straight precision and minimum twist tolerance.

Why *DURMA* Shears

- Fast and quality cuttings
- Robust body structure
- High precision and repeatability
- Low maintenance cost
- Hi-tech perfect equipments
- Boost your business
- Reliable Brand

Gain More Power

High performance, advanced technology and economic solution

DURMA Shears have been manufactured since 1956 and have been installed and working in a wide variety of sheet metal cutting operations for many industries.

Years of experience has helped us develop durable, low distortion and precise cutting machines.

General Specifications

- Robust design & powerful body for perfect cutting
- Hardened and ground blades for long life and precise
- Proved and rigid design with swing beam top table
- Minimum deformation and optimum cutting quality with best cutting angle
- CE standards security
- The combination of economic and perfect cutting performance
- CNC controlled gap adjustment and cutting angle
- User friendly CNC touch screen control unit
- Provide flexible use for narrow or wide, thin or thick sheet metal cutting.
- Automatic swing up back gauge for more comfortable use
- Sheet support arms
- Balls tranfered table and T-slot front feedings arm helps prices cuttings
- Table with balls and feeding plates

Strong Back Gauge System

- Precise
- Robust
- Min. Deformation

- Fast and high accuracy
- Reliable movement
- Adjustment from each point
- Resistance to crash
- Maintenance free

Why *DURMA* Back Gauge?

One of the most important factor for cutting capacity is the design of back gauge and stability.

Quality cutting is possible with perfect product, stablity and precision back gauge.

The high speed **ballscrew** back gauge system movement is also supported with **linear guides**, which helps the back gauge achieve long life, greater sensitivity and strengthens against any collisions.

Ballscrew back gauge

SBT Series General Features

With choice of standards and optional equipment SBT boost your business by offering proper solutions for your needs. With the hi-tech features like high efficiency, precision, and high performance criteria SBT has proved that it is user friendly and the best of this sector.

Flip-up Finger Guard
Ball Transfer Table
Hydraulic Holdowns

Adjustable Angle Stop 0-180°

Light Curtains For Finger Protection

Blade Gap Adjustment

Thin Sheet Support System

Sheet Support Systems

- Better and fast cutting
- Easy and secure usage
- High precision and repeatability

Standard & Optional Equipment

Standard Equipment

Heavy duty St 44 steel construction & stress relieved frame
User friendly CNC Touch screen control unit D-Touch 7
Easy blade gap adustment
Ball integrated front tables
Ballscrew back gauge, 1000 mm & automatic swing-up
Squaring arm with scale & T-Slot & tilting stop
Support arms T-Slot & Tilting stop
Illumination & shadow line1 mt flip-up finger guards
Automatically pressure adjusted solid holddowns
Top blades with 2 sides and Bottom blades with 4 sides
Foot pedal
High performance hydraulics & electronics components
Automatic Swing-up back gauge
CE-Norm

Optional equipment

Motorized blade gap adjustment
Laser cutting line
Light curtains for finger protection
Pneumatic thin sheet support *DURMA I*
Pneumatic thin sheet support *DURMA IV*
Special throat depth
Backgauge 1250 mm.
Add. support arms
Special blades
Oil coolant
Oil Heater
Adjustable angle stop 0-180°
Control panel on opposite position
Temperature measurement
Overseas special packaging

D-Touch 7 Control Unit

-  Fast data entry
-  Easy connection USB port
-  Ethernet Rj-45 10/100M
-  Easy programming

Cuttings are easier with D-Touch 7

With easy to use interface D-Touch 7 enables perfect cutting in seconds by endless programming and material entrance feature.

- Wide, colored, touch-screen (LCD 7" 800x480)
- Quick data entry
- Easy connection
- USB input
- Ethernet: RJ-45 10/100M
- Windows CE Unlimited program and steps
- Unlimited material type

Fast on Service and Spare Parts

DURMA provides the best level of service and spare parts with qualified personnel and spare parts in stock. Our experienced and professional service personnel are always ready at your service. Our professional training and application enriched courses will give you an advantage to use our machinery.
